

**I-235 and US-54/400 (Kellogg Ave.)
and Central Study
235-87 KA-0161-01
Sedgwick County, Kansas**

Concept Report

August 2007

Acknowledgements

This study was funded by the Kansas Department of Transportation (KDOT), who wishes to acknowledge the participation and efforts of the following Partners and Stakeholders throughout the course of the study:

Partners

Kansas Department of Transportation

Study Project Manager
Thomas Dow, AICP

Bureau of Design
Scott King, PE
Jonathan Marburger
Debbie Tanking, PE

Bureau of Transportation Planning
Chris Herrick, PE
David Schwartz, PE
Mike Floberg, PE
Marjie Norton
Becky Pepper

Bureau of Public Involvement
Ron Kaufmann
Chris Hess

Wichita Metro Office
Benny Traverdi, PE
Tom Hein

City of Wichita, Kansas

James Armour, PE
Paul Gunzelman, PE

Sedgwick County
Irene Hart
David Spears, PE

WAMPO
Nancy Harvieux, AICP
Mike Moriarty

FHWA
John Knowles
Rusty Simerl, PE
Byron Low, PE

Consultants

TranSystems

Study Project Manager
Steve Schmidt, PE
Thomas Swenson, PE
Steve Lackey, PE
Mark Kenneally, PE
Mike Wahlstedt, PE
Lesley Simmering, PE
Heidi Thummel

Gould Evans Associates
Graham Smith, AICP

ETC Institute
Chris Tatham

Stakeholders

Local stakeholders were active in the planning process for this project. Those stakeholders include:

A & K Tire
Bombardier Aerospace
City of Wichita
District Advisory Boards 4, 5 and 6
Fire Department
Flood Control/Storm Water
Mid-Continent Airport Board
Police Department, Patrol West Bureau

Kansas Highway Patrol
Orchard Breeze Neighborhood Association
Orchard Park Neighborhood Association
Sandpiper Bay Homeowners Association
Towne West Mall
Westar
Wichita Convention and Visitors Bureau
Wichita Downtown Development Corporation

I-235 and US-54/400 (Kellogg Ave.) and Central Study
235-87 KA-0161-01
Sedgwick County, Kansas

Concept Report

Table of Contents

INTRODUCTION

History 1-1
Study Overview..... 1-1
 Area Definitions..... 1-2
Public Engagement Process 1-4
 Coordination with Local Governments..... 1-4
 Reaching Out to the Public 1-4
 Public Opinion Surveys..... 1-6
 Interacting with the Media..... 1-6
 Utilizing a Project Website..... 1-6

REGIONAL CONTEXT

Regional Transportation System 2-1
 Defining Regional Context..... 2-1
 WAMPO LRTP Goals and Objectives 2-1
 Visioning Wichita – Creating the future for our regional community..... 2-3
 KDOT’s Long Range Transportation Plan 2-3
 Existing Regional Transportation System 2-4
 Interstate System 2-4
 US Route System..... 2-4
 State Route System 2-5
 Principal Arterial Street System 2-5
 Existing Multimodal System 2-6
 Public Transit 2-6
 Non-motorized Facilities 2-6
 Proposed Regional Transportation System..... 2-8
Regional Trends 2-10
 Demographics 2-10
 Population, Housing and Employment..... 2-10
 Travel Characteristics 2-11
 CTPP Data..... 2-11
 Traffic Volumes 2-11
Regional Context 2-14
 Contextual Elements 2-14
 Long Range Transportation Plan (LRTP) Programmed & Justified Projects... 2-14
 Wichita Valley Center Floodway 2-16
 Freight Mobility..... 2-17
 Airport Accessibility..... 2-20
 Westar Utility Corridor..... 2-22
 Congestion Management Process Network 2-22
 Identification of Opportunities and Constraints 2-23

EXISTING CONDITIONS

- Physical Corridor..... 3-1**
 - Typical Sections..... 3-1*
 - Physical Parameters..... 3-3*
 - Horizontal Alignment..... 3-3*
 - Vertical Alignment..... 3-6*
 - Condition Assessment..... 3-7**
 - Pavement Condition..... 3-7*
 - Bridge Condition..... 3-8*
 - Mobility Elements..... 3-9**
 - Public Transit..... 3-9*
 - Non-Motorized..... 3-10*
 - Access Management..... 3-11*
- The Environment 3-12**
 - Socioeconomic Factors 3-13**
 - Environmental Justice..... 3-13*
 - Demographics..... 3-14*
 - Land Use..... 3-15**
 - Residential..... 3-15*
 - Commercial..... 3-17*
 - Industrial..... 3-17*
 - Institutional..... 3-17*
 - Emergency Services..... 3-18**
 - Public Lands..... 3-18**
 - Cultural Resources..... 3-18**
 - Water Quality..... 3-19**
 - Floodplain..... 3-19**
 - Wetlands..... 3-19**
 - Soil Erosion and Sedimentation..... 3-21**
 - Threatened & Endangered Species..... 3-21**
 - Geologic Resources..... 3-22**
 - Hazardous Waste Sites..... 3-22**
 - Noise..... 3-22**
- Transportation 3-23**
 - Transportation Network..... 3-23**
 - Traffic Control and Signing..... 3-23*
 - Traffic Volumes..... 3-23**
 - Existing Peak Hour Traffic Volumes..... 3-25*
 - Capacity Analysis..... 3-28**
 - Level of Service Criteria..... 3-28*
 - WAMPO Travel Demand Model..... 3-29*
 - Simulation Models..... 3-30*
 - Highway Segments, Ramp and Weave Sections..... 3-30*
 - Ramp Terminals and Arterial Intersections..... 3-34*
 - Arterial Junctions..... 3-34*
 - Accident Data Review..... 3-36**
 - Crash Data..... 3-36*

PROJECTED CONDITIONS

Projected Traffic Volumes 4-1
Growth Trends..... 4-1
Historical Traffic Growth..... 4-1
WAMPO Model Traffic Projections 4-1
Traffic Growth Projections..... 4-2

Projected Capacity Analysis..... 4-3
Highway Segments, Ramp and Weave Sections 4-3
Ramp Terminals 4-6
Arterial Junctions..... 4-9
Signalized Intersections 4-9
Unsignalized Intersections 4-9

DESIGN CONCEPTS

Design Concepts Overview 5-1
Design Criteria..... 5-1
Design Concept Process..... 5-2
Design Forms..... 5-3
Design Concepts..... 5-3
Design Concepts Refinement 5-4

Inclusive Design..... 5-4
Interim Central Improvements 5-5

Design Concepts – Layouts Developed 5-6
Integrated Approach..... 5-6
Operations..... 5-6
Mainline I-235..... 5-6

Interchanges with their Arterials..... 5-10
I-235 and US-54/400 (Kellogg Ave.) and West Street Access 5-10
I-235 and Central Avenue 5-15

Design Concepts – Concept Assessment..... 5-21
Probable Impacts 5-21
Operations 5-21
Highway Segments, Ramp and Weave Sections 5-22
Mainline Operations 5-27
Interchange Operations 5-27

Probable Financial Elements..... 5-28
Construction Quantities and Utilities..... 5-28
Right-of-Way Parcels 5-28
Contingencies 5-28

Comparison 5-28
I-235 and Central Avenue Interchange..... 5-29
I-235 and US-54/400 (Kellogg Ave.) Interchange..... 5-29

Concept Refinement Process..... 5-31
Probable Costs..... 5-36
Recommendations..... 5-38

Concept Report

List of Exhibits

1.1	Study Process Flowchart.....	1-2
1.2	Study Area Boundaries.....	1-3
1.3	Public Engagement Activities	
	a. Photograph from Public Meeting.....	1-4
	b. Photograph from Community Advisory Committee Meeting.....	1-5
	c. Photograph from Public Meeting.....	1-5
	d. Photograph from Public Meeting.....	1-6
	e. Screen Capture of Website.....	1-6
2.1	L RTP Goals and Objectives Compared to Study Potential to Affect.....	2-2
2.2	Existing Regional Transportation System	2-5
2.3	Transit Bus Routes in Study Area	2-7
2.4	Wichita Bike Route Map (Detail).....	2-8
2.5	Proposed Regional Transportation System.....	2-9
2.6	Growth Areas per WAMPO 2030 L RTP	2-10
2.7	Permanent Count Station Data – I-235 – South of Maple Street	2-12
2.8	Permanent Count Station Data – US-54/400 (Kellogg Ave.) – East of West Street	2-13
2.9	L RTP Programmed and Justified Projects within Influence Area.....	2-15
2.10	Estimated Average Annual Daily Truck Traffic: 1998 and 2020.....	2-18
2.11	Truck Route Significance Criteria.....	2-19
2.12	Wichita Mid-Continent Airport and Expansion.....	2-21
2.13	Westar Electrical Utility Corridor.....	2-22
2.14	CMP Coverage Area and Network	2-23
3.1	I-235 Typical Section	3-1
3.2	US-54/400 (Kellogg Ave.) Typical Sections	3-2
3.3	Central Avenue Typical Section	3-2
3.4	I-235 Horizontal and Vertical Conditions	3-4
3.5	I-235 and US-54/400 (Kellogg Ave.) Ramps Horizontal and Vertical Conditions	3-5
3.6	Bridge Ratings	3-9
3.7	Transit Vehicle and Bus Stop	3-10
3.8	Cyclists and Pedestrians along Central Avenue	3-10
3.9	Sidewalk and Path on North Side of Maple Street	3-11
3.10	Sedgwick County Population Averages	3-13
3.11	Minority Populations	3-13
3.12	Poverty Level	3-13
3.13	Influence Area Minority and Poverty Block Groups.....	3-14
3.14	Demographic Profile of Age for Influence Area	3-15
3.15	Neighborhoods and Parks.....	3-16
3.16	Institutions Located within the Influence Area	3-17
3.17	Floodplain	3-20
3.18	NWI Wetland Areas	3-20
3.19	Hydric Soils.....	3-21
3.20	Sites Examined during Hazardous Waste Field Reconnaissance	3-22
3.21	Existing Traffic Control and Signing	3-24

3.22 Existing 2006 Traffic Volume Map

- a. AM Peak Hour 3-26
- b. PM Peak Hour 3-27

3.23 HCM Level of Service Thresholds 3-29

3.24 Existing 2006 AM and PM Segment Analysis – VISSIM LOS 3-32

3.25 Existing 2006 AM and PM Segment Analysis

- a. Interstate 235 3-33
- b. US-54/400 (Kellogg Ave.) 3-33

3.26 Existing 2006 AM and PM Signalized Intersection Analysis 3-35

3.27 Accident Scatter Plot Maps 3-37

3.28 Accident Rates (at 1/10th mile increments) 3-38

3.29 Accidents 1996 – 2005 3-39

4.1 Historical and Existing Traffic Volumes 4-1

4.2 Traffic Model Projections 4-2

4.3 Traffic Growth Projections 4-3

4.4 Projected 2030 Peak Hour Traffic Volumes

- a. AM Peak Hour 4-4
- b. PM Peak Hour 4-5

4.5 Projected 2030 AM and PM Segment Analysis – VISSIM LOS 4-7

4.6 Projected 2030 AM and PM Segment Analysis

- a. Interstate 235 4-8
- b. US-54/400 (Kellogg Ave.) 4-8

4.7 Projected 2030 AM and PM Signalized Intersection Analysis 4-10

5.1 System Interchange Ramp Design Criteria 5-2

5.2 Design Concept Process Flow Chart 5-2

5.3 One-Line and Two-line Diagrams 5-3

5.4 Interim Improvement Concept at Central Avenue 5-5

5.5 I-235 Mainline 5-6

5.6 Concepts Developed at I-235 and US-54/400 (Kellogg Ave.) Interchange 5-11

5.7 Concepts Carried Forward at I-235 and US-54/400 (Kellogg Ave.) Interchange

- a. Fully Directional Interchange 5-13
- b. Fully Directional Interchange with Two Loops 5-14

5.8 Concepts Developed at I-235 and Central Ave. Interchange 5-15

5.9 Concepts Carried Forward at I-235 and Central Ave. Interchange

- a. Tight Diamond Interchange 5-18
- b. SPUI 5-19
- c. Tight Diamond Interchange with Transfer Ramp 5-20

5.10 Projected 2030 Peak Hour Traffic Volumes – With Proposed Improvements

- a. AM Peak Hour 5-23
- b. PM Peak Hour 5-24

5.11 Projected 2030 AM and PM Segment Analysis – VISSIM LOS – With Proposed Improvements 5-25

5.12 2030 AM and PM Segment Analysis – With Proposed Improvements

- a. Interstate 235 5-26
- b. US-54/400 (Kellogg Ave.) 5-26

5.13 Matrix Assessment 5-30

5.14 Preferred Concept Plan Overview

- a. I-235 and US-54/400 (Kellogg Ave.) Interchange 5-32
 - i. Visualization 5-33
- b. Interstate 235 5-34
- c. I-235 and Central Avenue Interchange 5-35

5.15 Probable Costs 5-37

5.16 Suggested Implementation 5-39

LIST OF ACRONYMS

AASHTO – American Association of State Highway Transportation Officials
 ADA – American Disabilities Act
 AM – Ante Meridiem

Big Ditch – Common name for WVCF

CAC – Community Advisory Committee
 CD – Collector Distributor
 CERCLIS – Comprehensive Environmental Response, Compensation and Liability Information System
 CIP – Capital Improvement Program
 CFR – Code of Federal Regulations
 CMP – Congestion Management Process
 CMS – Congestion Management System
 CTPP – Census Transportation Planning Package

DAB – District Advisory Board
 dB - decibel
 dBA - A weighted sound levels
 dBA-Leq(h) - hourly equivalent sound level

EIS – Environmental Impact Statement
 ERU – Equivalent Residential Units

FAF – Freight Analysis Framework
 FEMA – Federal Emergency Management Agency
 FHWA – Federal Highway Administration
 FTZ – Foreign Trade Zone

ITE – Institute of Transportation Engineers
 ITS – Intelligent Transportation Systems

KDHE - Kansas Department of Health and Environment
 KDOT – Kansas Department of Transportation
 KSHS - Kansas State Historical Society
 KDWP - Kansas Department of Wildlife and Parks
 kV – Kilovolt

Leq - equivalent sound level
 LOS – Level of Service
 LRTP – Long Range Transportation Plan
 LWCF - Land and Water Conservation Fund

MIS – Major Investment Study
 Mph– Miles per hour
 MPO - Metropolitan Planning Organization
 MSA – Metropolitan Statistical Area

NAC - noise abatement criteria
 NB – Northbound
 NFIP – National Flood Insurance Program
 NHS – National Highway System
 NPL - National Priorities List
 NRCS - Natural Resources Conservation Service

NRHP - National Register of Historic Places
NW – Northwest
NWI - National Wetland Inventory

PARCLO – Partial cloverleaf
PM – Post Meridiem

RHKP - Register of Historic Kansas Places

SAFETEA-LU – Safe Accountable Flexible Efficient Transportation Equity Act – A Legacy for
Users

SATS – South Area Transportation Study

SB – Southbound

SPIRIT – Southwest Passage Initiative for Regional and Interstate Transportation

SPUI – Single Point Urban Interchange

TTC – Texas Transportation Corridor

USACE – U.S. Army Corps of Engineers

USGS - U.S. Geological Survey

WAMPO – Wichita Area Metropolitan Planning Organization

WMCA – Wichita Mid-Continent Airport

WRHP - Wichita Register of Historic Places

WT – Wichita Transit

WVCF – Wichita Valley Center Floodway
