

Mileage Map

Mileages shown are between central junctions of cities shown, measured via shortest US, K, or Interstate route combinations. Use of the Kansas Turnpike (a toll road) will reduce some trip distances.

Highway Speed Limits are posted at state borders; at highway junctions; at urban limits; and at terminals of reduced speed zones. Unless otherwise shown the following apply:

Passenger cars; buses and trucks (licensed weight 8,000 lbs. or less)—US, and K numbered routes: 70 m.p.h. day; 60 m.p.h. night. Interstate routes and Kansas Turnpike: 75 m.p.h. day; 70 m.p.h. night; 40 m.p.h. minimum day or night.

Trucks licensed over 8,000 lbs.—US, K and Interstate: 60 m.p.h. day or night. Minimum on Interstate 40 m.p.h. Kansas Turnpike—75 m.p.h. day; 70 m.p.h. night; 40 m.p.h. minimum.

The Kansas Highway Patrol is the state's principal traffic law enforcement agency for the 10,000 miles of Kansas highways. Cooperating with them are the sheriff patrols and in the cities are the local police departments.

Troopers patrol the highways as a reminder to each driver that he alone is responsible for the safe operation of his vehicle, but as their motto implies troopers are also there for "Service, Courtesy, and Protection" to the motoring public.

Services rendered by the Highway Patrol to motorists stranded along state highways out-number citations they issue for traffic law violations.
