LEGEND

The Kansas Transportation Map shows the facilities that serve three state transportation systems–roads and highways, railroads and airports.

Shown in red and black are the nearly 10,000 miles of state highways maintained by the Kansas Department of Transportation.

Along the interstate routes (I-35, I-70, I-135, I-235, I-470, I-435, or I-635) interchange numbers are printed on the map. These numbers indicate the approximate mileage from either the west or south ends of the routes. Letters "A" or "B" are added if there is more than one interchange between two milepost markers.

Cumulative state highway mileage is printed in red between stars; mileages between towns and road junctions are shown in black.

Red triangles denote highway rest areas. Symbols also mark state parks at federal or state lakes.

Major county roads, shown in blue, are maintained by the counties. County boundaries are marked in black and overprinted in yellow.

Railroads are shown in black.

Airport symbols that are shown in red indicate commercial airports. General aviation airports are symbolized in black.

Tourist attraction locations and points of interest are printed in red and blue.

County abbreviations appearing on motor vehicle licenses are listed in the far left column.

Population figures are from the federal census released in December, 1980.

Mileage Chart

Distances are measured via the shortest US, K, or Interstate Route combinations between cities shown.
The Kansas Turnpike will decrease the mileage as shown between many cities.
