

APPENDIX

to the

KANSAS DEPARTMENT OF TRANSPORTATION'S 2023 Annual Report

This appendix contains additional transportation information on:

- Financial Compliance
- Project Selection Criteria
- Transportation Revolving Fund
- Innovative Technology Program
- Broadband
- Modal Information
- Federal Fund Exchange Program
- Project list detailing projects currently scheduled for improvement, projects completed in FY 2022 and projects under construction.
- Projects in the ELTP, with construction bid award of \$5 million or greater.
- Lists of aviation, rail and public transit projects.

Section A

Financial Compliance

Each year, the Department provides financial information to the Governor and Legislature. This information includes both a summary of financial information and a statement of assurance that an Annual Comprehensive Financial Report (ACFR) of all funds for the preceding year has been prepared. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared an ACFR for Fiscal Year (FY) 2022. A report of the independent public accountants,

CliftonLarsonAllen, LLP, is included in the ACFR after audit completion. Also included in the ACFR is a certificate of achievement awarded to the Department for excellence in financial reporting for the FY 2021 ACFR. This award marks the 34th consecutive year that the Department has received the award.

The complete ACFR is available by contacting the Department's Division of Communications at 785-296-3585 (Voice)/(TTY). The FY 2022 ACFR is available under the KDOT Financial Disclosures section of the Department's website at <http://www.ksdot.org/bureaus/burFiscal/default.asp>.

FY 2022 Financial Information

The following schedule is a summary of revenues and expenditures for all funds for FY 2022. All amounts are in thousands.

	<u>2022</u>	<u>Percent of Total</u>
<u>REVENUES</u>		
Motor Fuel Taxes	\$ 465,580	24 %
Vehicle Registrations and Permits	240,333	12
Intergovernmental	574,936	29
Sales and Use Taxes	668,882	34
Investment Earnings	1,015	0
Other	8,901	1
Transfers from Other State Funds	1,705	0
Total revenues	\$ 1,961,352	100 %

EXPENDITURES

Current Operating		
Maintenance	\$ 134,446	7 %
Preservation	504,622	28
Modernization	132,575	7

	<u>2022</u>	<u>Percent of Total</u>
Expansion and enhancement	\$ 189,433	11 %
Communications system	7,572	1
Local Support	259,057	14
Transportation planning and modal support	91,670	5
Administration	59,888	3
Debt Service		
Principal	127,385	7
Interest and fees	79,999	4
Transfers to Other State Funds	229,937	13
Total expenditures	\$ 1,816,584	100 %
<u>OTHER SOURCES (uses)</u>		
Sale of assets	\$ 1,404	100 %
Total other	\$ 1,404	100 %

Excess (Deficiency) of Revenues and Other Sources Over Expenditures	\$ 146,172	100 %
---	-------------------	--------------

Project Selection Criteria

In the past year, progress in the Kansas Eisenhower Legacy Transportation Program (IKE) has accelerated with the achievement of key milestones in many significant projects. A few examples include the start of design activities and right of way acquisitions for the Polk-Quincy Viaduct project in Topeka, the letting to construction of portions of the K-383 reconstruction in Norton and Phillips counties, the selection of a design-build team for the U.S. 69 project in Johnson County and the selection of the design-build team for the local road project in support of the Samsung battery plant in De Soto (anticipated in late December 2022). These projects are part of the Modernization and Expansion core roadway programs.

Projects in newly-established programs also are getting underway or will soon be in development. For example, in the Innovative Technologies program, a subcategory of the Modernization core roadway program, projects addressing fiber and smart technology installations are in all stages of development - from design to construction. Soon, projects focused on electric vehicle (EV) infrastructure will be in development with the new funding made available in the federal transportation program Bipartisan Infrastructure Bill (BIL) and with the recent approval by the Federal Highway Administration of the Kansas EV infrastructure deployment plan. These new programs highlight KDOT's commitment to continue to evolve with the changing needs of transportation identified at both the state and national levels. All of this progress in IKE was realized, while managing the highest inflation seen in decades, coping with contractions in an already strained workforce and experiencing material shortages.

In addition to progress on these larger-scale projects and new areas, KDOT continues to make strides in maintaining existing roadway and bridge infrastructure with funding levels in IKE set to preserve the existing system. This dedication safeguards our existing infrastructure so that it remains in good condition and provides service

for as long as possible. Also, as part of IKE are projects that address local roads from the City Connecting Link Improvement Program (CCLIP) and Transportation Enhancement programs, which are examples of the many programs dedicated to local roads. Whenever practical, KDOT will leverage partnerships with local communities to help maintain the state's transportation system and get the best value possible from our resources.

Like the T-WORKS program, IKE is committed to a minimum of \$8 million in investments in all 105 counties so all areas of Kansas benefit from IKE. This \$8 million promise will be made up of projects from the core roadway programs as well as Preservation, Modernization, Expansion and Local Construction programs and will also include aviation, transit and rail projects. Information about the other programs follow this discussion of the core roadway programs.

IKE was enacted July 1, 2020, for a 10-year period that concludes on June 30, 2030. It was designed to be flexible and responsive to shifting needs in Kansas transportation. The first priority of the new program was to bring the 18 delayed T-WORKS road projects to construction. This has largely been achieved with only two delayed T-WORKS projects remaining to let with a single phase to construction.

Now, the focus turns to delivering IKE and despite many new challenges, the work is progressing. A portion of the IKE program will work to improve the Kansas roadway system by providing some funding for projects in the Modernization and Expansion programs. Projects from these programs will be selected every two years from a pool of development projects to the level funding is available. KDOT will continue to work with the public on identifying projects through local consult meetings that will take place across the state. Together with local partners, the agency will select new projects to be added to the initial preliminary development pipeline. The next Local Consult meetings are anticipated to occur in the fall of 2023. While this strategy results in more projects in the development pipeline than

existing funding allows to be constructed, the strategy ensures little lag from development to construction as funding becomes available.

Other benefits of this approach are more efficient use of resources, better leverage of federal funds and the flexibility to respond to emerging needs. Projects will be chosen to advance from the development pipeline based upon factors such as need, level of local support and prevailing economic conditions. Combined, these mechanisms make sure our limited resources are used efficiently and effectively by being directed at projects with the potential to yield the greatest benefit.

Many tools are used by KDOT leadership in the development and execution of a transportation program. Two key tools are the 2045 Long-Range Transportation Plan (LRTP), which analyzes trends and issues in transportation and provides possible recommendations, along with the 2019 Transportation Asset Management Plan (TAMP), which provides a detailed assessment of current infrastructure. Together, these two tools provide information about current conditions and trending issues affecting transportation by providing framework, direction and focus for KDOT management in their day-to-day decision-making processes.

To facilitate program management under IKE, KDOT categorizes road and bridge construction projects into four broad groups or core programs of Preservation, Modernization, Expansion and Local Construction. These four core programs group together construction projects with similar work types and scopes. Projects are then further grouped together based upon similar funding sources or project-types into more specific groups or subcategories. This organizational structure aids KDOT in the management of the transportation program. A list of the programs and respective subcategories is provided before the project lists that follow this discussion.

IKE, like the previous T-WORKS program, continues to use a strategic approach to highway project selection. Under the new approach, multiple strategies are used in project evaluation and

selection include engineering factors, local input and economic impact. One or multiple strategies may be applied depending on the program and what has proven to be most productive. Additionally, project selection timing of the larger-scale preservation program construction projects will continue to be on a two-year rolling basis.

This selection method was implemented under T-WORKS and provides KDOT with greater programming flexibility, allowing KDOT to respond to changes in economics or need. By continuing to use multiple approaches for project selection, KDOT benefits from increased stakeholder input and support, increased flexibility in project selection and increased maneuverability to respond to the prevailing economic conditions and/or changing roadway conditions.

For the types of projects developed in the Preservation program, engineering factors continue to be the most effective method of evaluation. In the Modernization program, a combination of engineering-based formulas and regional priorities has proven successful. In the Expansion program, economic impacts, along with engineering factors and regional priorities, provide an effective combination for project selection. In all of the programs, proposed projects are scored and ranked based upon how well the proposed projects address the relevant evaluation criterion or criteria of the program. Then, selections are made based upon the results of the evaluation. Adding new factors to evaluate Modernization and Expansion program projects makes sure that a project is not only a sound engineering project but is also a project that aligns with the goals and priorities of a region. In the case of an Expansion project, it also provides economic benefits. Project selection for the fourth core program, Local Construction, remains unchanged and is determined at the local level by local entities throughout the state with the coordination of KDOT's Bureau of Local Projects.

Already established engineering-based formulas are used for the Preservation, Modernization and Expansion programs to evaluate project engineering factors. Regional priorities are determined through

the Local Consult meetings held throughout the state every two years. Through these meetings and through the continued interaction between the Area and District Engineers with local entities, KDOT maintains an ongoing dialogue with stakeholders across Kansas enabling KDOT to react to changes in regional focus and priorities as they arise. The last factor, economic impact, is assessed by the agency through computer modeling. Modeling estimates the potential increases in jobs, income and economic output for a region resulting from a specific transportation improvement.

The following chart illustrates the selection criteria applied to IKE projects in each of the four core programs and the weight given to each criterion.

IKE Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

The Preservation program protects the public’s investment in its highway system by maintaining the “as built” condition of roads and bridges. This is a diverse group that includes both larger scale projects such as roadway surfacing rehabilitations, major bridge repairs, full pavement and bridge replacements to smaller set-aside projects such as minor bridge repairs, resurfacing, patching and seals.

When selecting preservation projects, the engineering factors that relate to the pavement and bridge conditions are used such as remaining pavement life, rutting and cracking for roads and joint

or bridge deck condition and/or load ratings. Roads and bridges are evaluated on an annual basis, and projects are selected each year based upon this review. Additionally, within the Preservation program, are a group of “other” set-aside projects that are unrelated to road condition but, rather, address safety issues. These include signing, pavement markings and railroad crossing surfaces.

Set-aside projects are so named because the funds to perform the work is “set aside,” or reserved specifically for the type of work designated by the Set-aside subcategory. The “other” set-aside group of projects are generally federally funded while the road and bridge set-aside projects are traditionally state funded. Recently, however, federal funds have been applied to some road and bridge set-aside projects. The road, bridge and other set-aside group of projects are selected on an annual basis while the larger-scale preservation projects use the rolling two-year selection process. Since most projects in the Preservation program are selected annually and the work involved rarely requires more than one season to complete, the majority of the preservation projects listed in this report are for work to be performed in Fiscal Year 2023. Selecting and programming the set-aside projects in the Preservation program on an annual basis allows KDOT to maintain flexibility and responsiveness in the project selection process during IKE.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on existing roadways. As previously discussed, under IKE, the first focus are the delayed T-WORKS projects, including the delayed T-WORKS modernization projects. Most of these projects have progressed to construction letting with the remaining set to let to construction in the early years of IKE. In addition to the delayed projects from T-WORKS, modernization development pipeline

projects will continue to be selected and developed with some of the selections proceeding to the construction pipeline. The development pipeline will be replenished in late calendar year 2023 with additions added based upon the decisions made in the next round of Local Consult meetings.

Also included within the Modernization program are the practical improvement projects developed out of the Preservation program annual review of roads and bridges and the smaller scale set-aside projects. Projects within the practical improvement umbrella are hybrids with elements of both the Preservation and the Modernization programs. However, the projects have greater complexity and scope than preservation projects, making them a better fit under the Modernization program. In contrast to other modernization projects, practical improvement projects are not selected in advance but rather are selected on a need basis as determined from the annual review of roads. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By employing the practical improvement approach, a project may be completed in the most cost-efficient and manner feasible. The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent. Projects from the modernization set aside subcategories of corridor, lighting and three safety related programs address issues like corridor development, lighting upgrades or replacements and smaller scale safety improvements such as turn lane additions or intersection improvements. The set-aside projects, like the practical improvement projects, are selected on an annual basis. A small portion of the designated modernization funding is reserved to fund the practical improvement projects and set-aside projects as they are identified in IKE.

The Expansion program, the third principal core group under IKE, is intended for projects that expand and enhance the transportation system. Projects in this program concentrate on improving capacity

by adding new lanes or interchanges, reducing commute time and improving air quality by relieving congestion and enhancing economic development in a region by selecting projects with high economic impact. As with the Modernization program, the first priority was resumption of the delayed T-WORKS expansion projects with most of these projects let to construction and with the remaining anticipated to let to construction in the early years of IKE. Along with the delayed T-WORKS projects are the development pipeline projects.

The expansion development pipeline projects will continue to be selected and developed with some selections advancing to the construction pipeline. Every two years, based on the needs and priorities that emerge from the Local Consult meetings, new pipeline development projects will be selected to replenish the pipeline. Project selections from the fall 2023 Local Consult meetings are anticipated to be added to the preliminary development pool in Fiscal Year 2024. This process allows projects to be ready to proceed without delay, which increases efficiency and allows maximum use of federal and state funding as it becomes available for KDOT use.

Along with the larger-scale expansion projects, the Expansion program also has smaller improvement subcategories for which a portion of the expansion funding is reserved. Projects in these subcategories - the Cost Share program, the Economic Development program and the Intelligent Transportation Systems set-aside - are not as complex as the pool pipeline expansion projects. As a result, they are managed differently than the larger expansion projects. The economic development projects are selected on an ongoing basis throughout a transportation program as good candidate projects are put forth. The Cost Share program develops projects in a manner similar to the Economic Development program with project applications accepted on an ongoing basis, reviewed twice a year and projects selected based on available funding. The intelligent transportation systems projects are selected on an annual basis. This ongoing selection process allows KDOT a degree of flexibility in programming

the Expansion program as it allows KDOT to respond to new conditions as they arise in the Expansion program throughout the 10 years of IKE.

The fourth group, the Local Construction program, addresses improvements to city or county roads. The work encompassed by this program is varied in nature - ranging from safety oriented, to maintenance of existing roadway to small-scale expansion type projects. Regardless of the project scopes, the common denominator for all projects is that the work is on a city or county road. Many of the subcategories within the Local Construction program (K1R-CCLIP program and Transportation Enhancement program) are partnership programs in which KDOT or the federal government partner with local entities to share the costs and enable local dollars to stretch further.

To generate candidate projects, many prospective projects in these partnership programs are solicited through an application process. The pool of project applications is prioritized based upon program specific criteria. Then, projects are evaluated, selected and programmed until the available funds are expended. The schedule for project solicitation varies but most of the partnership programs solicit projects on an annual basis. In other subcategories within the Local Construction program, the locals are solely responsible for project selection and development. To assist local entities in their selection process, KDOT makes available bridge inspection data, traffic accident data and traffic count data among other resources. In KDOT, the Bureau of Local Projects is a key contact for local construction projects.

As in T-WORKS, a website has been created for the IKE program. It includes selected projects, the progress of the \$8 million commitment for every Kansas county and other information. The website can be viewed at <https://www.ksdotike.org/>.

Project Listings

The project listings can be found starting on page B-1.

Transportation Revolving Fund

The Transportation Revolving Fund was a statewide revolving loan fund that provided loans to local units of government for financing road and bridge improvements on and off the State Highway System. Since August 2004, the fund provided 119 executed loans totaling \$141.7 million to 58 cities and counties.

Innovative Technology Program

The Eisenhower Legacy Transportation Program (IKE) established the Innovative Technology Program in 2020 to leverage new innovative technology opportunities to better position the state for the future. The Innovative Technology Program provides financial assistance to partners for innovative technology projects that improve safety, increase total technology investment and help both rural and urban areas of the state improve the transportation system. The program accepts applications on an annual basis. The legislation authorizing the IKE Program included the creation of the Transportation Technology Development Fund (TTDF). The TTDF receives a \$2 million transfer from the State Highway Fund each fiscal year. The fund provides assistance with the implementation of new technology and capabilities for all modes of transportation, including, but not limited to, aviation and highway transportation.

Broadband Acceleration Grant Program

The Broadband Acceleration Grant Program, administered by the Department of Commerce, will expand broadband access to rural and underserved communities across the state. Over the next 10 years, the program seeks to invest \$85 million toward bridging the digital divide in Kansas with broad-band modernization funding provided through the IKE Program. There will be \$5 million will available annually over the next three years, with \$10 million annually made available over the following seven years. A maximum of \$1 million per grant will go toward funding projects that provide access to high quality, reliable broadband throughout Kansas, with priority given to applications that address un-served areas, economically distressed communities and areas of compelling need.

Modal Information **Public Transportation**

Public transportation in Kansas is supported by a state program and multiple Federal Transit Administration (FTA) funding programs authorized by the FAST Act. KDOT receives \$11 million annually from the State Highway Fund and received \$22.8 million from FTA to administer programs in Fiscal Year 2022.

These funding programs are augmented by local match to provide the funding for 79 rural general public transit service providers, 66 transit providers (that service elderly persons and persons with disabilities) and six urban transit properties. These combined services provide essential transportation services in all areas of the state to expand, improve and enhance public transportation options. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides capital, planning and

operating assistance to states to support rural and small urban (under 50,000 population) transportation projects that serve the general public.

The CARES Act, which follows FTA 49 U.S.C 5311 program guidelines, supports public transportation operations during the COVID-19 pandemic. The funding is intended to cover 100% of operating and capital assistance for public transportation operators that have realized an impact due to COVID-19.

The FTA 49 U.S.C. 5310 program is intended to enhance mobility for seniors and persons with disabilities. It provides funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. Urbanized areas and nonurban areas with populations under 200,000 are eligible for 5310 funds.

FTA 49 U.S.C. 5304 provides funding to support cooperative, continuous and comprehensive planning for making transportation investment decisions statewide and in nonmetropolitan areas.

FTA 49 U.S.C. 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers and keep rural areas of the state connected to the national network and access to national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund (RSIF) and Short Line Rail Improvement Fund (SLRIF) are administered by KDOT's freight

and rail unit. These funds make available to short line railroads, shippers and other qualifying entities grants to be used for major track rehabilitation and capacity improvement projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Kansas Airport Improvement Program

When time is of the essence, no other means of travel can fulfill time-sensitive requirements the way air transportation does. Airports serve a vital role in the state transportation system. The foremost role is to support economic activity for companies that rely on airports in their daily business. According to the 2017 Kansas Aviation Economic Impact Study, aviation contributes more than \$20.6 billion to the Kansas economy each year. The Kansas airport system supports air ambulance access and emergency medical services in addition to agricultural applications, charters, the National Airspace System (NAS), private air travel and other career fields. The goals of the Kansas Airport Improvement Program (KAIP) include:

- Maintain the system's runway condition rating of "very good;"
- Minimize surface travel time to air ambulance pick-up locations;
- Improve safety;
- Enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. Projects under this program are solicited annually to preserve or modernize facilities, to design or plan continued development and to improve or add equipment. A key element of the program is a local matching requirement of between 5 and 50%, which is determined by project category. The program is funded through the Public Use General Aviation Airport Development Fund, which receives an annual transfer of \$5 million from the State Highway Fund. Since its inception in FY 2000, the program has supported 757 projects at 138 public-use airports totaling more than \$133.7 million in airport improvements to the state.

Unmanned Aerial Systems (UAS)

Members of the Division of Aviation participated in multiple national boards and working groups to provide subject matter expertise and perspective from rural America to serve such organizations as: FAA, NASA, Advanced Aviation Advisory Committee, Alliance for Aviation Across America, and the Beyond Visual Line of Site Aviation Rulemaking Committee. The Division of Aviation also continues to synchronize the efforts of Kansas UAS stakeholders who have committed to support FAA research operations to gather important flight safety data that will inform future FAA regulations.

These joint efforts have produced a handful of noteworthy achievements. KDOT Aviation received one of very few FAA Beyond Visual Line of Sight (BVLOS) Part 107 waivers that have been granted in the nation to conduct infrastructure inspection. This authorization allows KDOT to fly small UAS further and longer than current regulations permit. To date, the program has flown more than 735 miles, 1300-plus hours of testing operations and carried out more than 2,931 total flight operations. In addition, the BEYOND program will continue to advance the safe integration of drones into the national air space. There are 44 state agencies, universities and technology groups joining the aviation team in its efforts in the BEYOND program.

Federal Fund Exchange Program

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal

engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs include all counties in the state and cities with populations greater than 5,000 and less than 200,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures. Dollars must be used on transportation projects and state fund exchange dollars are paid to the LPA on a reimbursement basis.

In general, KDOT will annually determine the amount of state funds available for exchange at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new Federal Fiscal Year (FFY), KDOT's Bureau of Local Projects will notify the LPAs in writing of the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT's website at www.ksdot.org/burlocalproj/.

PROJECT LISTINGS

Sections B, C, D, E

This section contains the separate project lists required by K.S.A Supp. 68-2315.

The remaining projects currently scheduled for improvement in the Eisenhower Legacy Transportation Program (ELTP), projects completed in FY 2022, and projects under construction. All lists are organized by county and route. Each project includes a description, project length, construction cost or estimated construction cost and work type. A detailed explanation of the methods employed in the selection of projects is also required and may be found in this appendix in section A.

Additionally, new requirement of the ELTP is a list of all projects let to construction for \$5M or greater with the name of the contractor awarded the bid and the winning bid amount. This list is an ongoing list for the duration of the ELTP and new projects that meet the requirement will be added each year.

Along with the state highway construction project information, project lists for the other modes including, aviation, rail and public transit are provided.

-
- The project lists are:*
- *Remaining projects currently scheduled for improvement in the ELTP, pages B-1 to B-29.*
 - *Projects completed in FY 2022, pages C-1 to C-18.*
 - *Projects under construction (includes projects from years prior to ELTP), pages D-1 to D-42.*
 - *Projects in the ELTP, with construction bid award of \$5 million or greater, pages E-1 to E-4.*
 - *Aviation, rail, and public transit projects, pages F-1 to F-9.*

NOTE: This section, as well as previous Annual Reports, is available on KDOT's Internet site at www.ksdot.org/publications.asp.

PROGRAM CATEGORIES

The following is a breakdown of the Programs and Sub-Categories that are shown in the Project Listing.

SM-Preservation--Taking Care of What We Have

- IRR-Non-Interstate Resurfacing (PMS 1R)
- BCR-Culvert Repair
- BSP-Bridge Painting
- BSR-Bridge Repair
- CMN-Contract Maintenance (PMS)
- EMR-Emergency Repair
- IRP-Interstate Basic Improvement (former RIM split to Preservation)
- ISR-Interstate Resurfacing (PMS)
- NHP-Miscellaneous for Preservation
- PBR-Bridge Replacement/Rehabilitation
- PCR-Culvert (to Bridge) Rehabilitation
- PDR-Bridge Redeck
- PMR-Pavement Marking
- RIP-Non-Interstate Basic Impr (old RIM split to Preserv)
- RRS-Railroad Crossing Surfacing
- SLR-Signing & Lighting Repair and Replacement
- SOS-Highway Signing
- SRR-State Route Removal Program

MM-Modernization--Safety & Shoulder Improvements

- IRS-Resurfacing w/Improvements (Practical Design)
- CLZ-Clear Zone Program
- COR-Corridor Management
- GFU-Guard Fence Upgrades
- GSI-General Safety Improvement Projects
- ICT-Innovative Connected Technologies
- IRI-Interstate Roadway Geometric Improvements
- KCC-KCC Railroad Crossing Projects
- LTG-Highway Lighting

MM-Modernization--Safety & Shoulder Improvements

- MPR-Miscellaneous for modernization
- RIM-Non-Interstate Geometric Improvements
- SAF-Safety Projects (State)
- SBW-Scenic Byway
- SSI-Strategic Safety Improvement Program

SE-Expansion/Enhancement--Adding Something New

- AAR-Advanced Acquisition of ROW
- CSP-Cost Share Program
- EDP-Economic Development
- IRC-Interstate Capacity Impr (old IRI split to Exp/Enh)
- ITS-Intelligent Transportation Systems (ITS)
- RIC-Non-Interstate Capacity Impr (old RIM split to Exp/Enh)
- RSL-Local Partnership Railroad Grade Separations
- RSP-New Railroad Grade Separations (State)

LC-Local Construction

- HAZ-Safety Projects (HSIP, off-system)
- HES-Safety Projects (HSIP, on-system)
- K1R-KLINK Surface Preservation
- K2R-KLINK Pavement Restoration
- K3R-KLINK Geometric Improvements
- LBT-Local Bridge Transfer Program
- LOC-Local Construction (Local Administered & Let)
- RES-Local Construction (KDOT Administered & Let)
- RRX-Railroad Crossing Protection (HSIP, on-system)
- RXR-Railroad Crossing Protection (HSIP, off-system)
- SRT-Safe Routes To Schools (Federal)
- TEX-Transportation Enhancement Program

REMAINING PROJECTS SCHEDULED FOR IMPROVEMENT IN (FY 2023 - 2030)

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year
Allen		BRIDGE OVER STREAM ON NEBRASKA ROAD LOCATED 2.0 MILES WEST AND 1.0 MILE SOUTH OF LA HARPE	0.1	Bridge Replacement	207	LC-LBT	2023
Allen		PHASE 2: PATH FROM 9TH STREET NORTH A MILE TO THE SOUTHWIND RAIL TRAILHEAD IN HUMBOLDT	1.0	Pedestrian and Bicycle Paths	1,199	SE-CSP	2023
Allen		U.S. 54 AT OAK AND FIRST STREETS IN IOLA	-	Pedestrian and Bicycle Paths	131	LC-TEX	2024
Allen		VARIOUS LOCATIONS IN THE COUNTY	-	Milling and Overlay	983	SE-CSP	2023
Anderson	U059	U.S. 59, AT THE U.S. 59/U.S. 169 JUNCTION	0.0	Intersection Improvement	2,492	MM-SAF	2024
Anderson	U169	U.S. 169, AT FOUR LOCATIONS BEGINNING 0.76 MILE NORTHEAST OF SW MISSOURI ROAD NORTHEAST TO APPROXIMATELY 1,056 FEET NORTH OF 1900 ROAD	10.4	Guard Fence	426	MM-GFU	2024
Anderson	U169	U.S. 169, AT NE 2370 ROAD	0.1	Guard Fence	140	MM-GFU	2024
Atchison		BRIDGE OVER TRIBUTARY TO STRANGER CREEK ON 242 ROAD LOCATED 2.5 MILES SOUTH AND 0.7 MILE WEST OF FARMINGTON	0.2	Bridge Replacement	268	LC-LBT	2024
Atchison	U059	U.S. 59, AMELIA EARHART BRIDGE (#055) OVER THE MISSOURI RIVER LOCATED APPROXIMATELY 1,637 FEET EAST OF 4TH STREET IN ATCHISON	0.0	Lighting	100	SE-EDP	2023
Atchison	U073	U.S. 73, BRIDGE OVER WALNUT CREEK DRAINAGE LOCATED APPROXIMATELY 4.5 MILES NORTHWEST OF THE U.S. 73/K-74 JUNCTION	0.0	Bridge Replacement	3,196	SM-PBR	2023
Barber		BRIDGE OVER TRIBUTARY TO WEST BRANCH OF LITTLE SANDY ON SE BLACKMORE ROAD LOCATED 2.3 MILES NORTH AND 3 MILES WEST OF SHARON	0.2	Bridge Replacement	388	LC-LBT	2024
Barber	K002	K-2, BRIDGE #030 OVER LITTLE MULE CREEK LOCATED 1.8 MILES EAST OF U.S. 281	0.0	Bridge Replacement	3,065	SM-PBR	2024
Barton		2ND STREET FROM THE WEST SIDE OF GREEN STREET TO THE EAST SIDE OF ELM STREET EXCLUDING THE INTERSECTION OF MAIN STREET IN HOISINGTON	-	Grading and Surfacing	812	SE-CSP	2023
Barton	U056	U.S. 56 AND MCKINLEY STREET IN GREAT BEND	0.0	Traffic Signals	300	LC-HES	2024
Barton	U281	U.S. 281 (W 9TH STREET) FROM CENTER STREET TO COURT STREET IN HOISINGTON	0.2	Pavement Reconstruction	865	LC-K2R	2024
Bourbon		BRIDGE OVER TRIBUTARY TO PAWNEE CREEK ON 160TH STREET LOCATED A MILE WEST AND 2.8 MILES NORTH OF PAWNEE STATION	0.1	Bridge Replacement	282	LC-RES	2023
Bourbon		S HORTON STREET FROM W 18TH STREET TO W 6TH STREET AND W 6TH STREET FROM S HORTON STREET TO S NATIONAL AVENUE IN FORT SCOTT	1.5	Surfacing	1,460	SE-CSP	2024

Blanks in the Const. Cost column indicate that the project does not have a construction work phase.

A breakdown of the Program Cat and Subcat column is provided preceding the project lists.

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const. Cost (1,000's)	Prog Cat AND Subcat	Fiscal Year
Bourbon	K007	K-7, FROM THE CRAWFORD/BOURBON COUNTY LINE NORTH TO 2,112 FEET SOUTHWEST OF U.S. 69 INCLUDES THE LITTLE PAWNEE CREEK DRAINAGE BRIDGE #030	11.1	Grading, Bridge and Surfacing	16,917	MM-RIM	2024
Brown		PROVIDE FUNDS TO THE KICKAPOO TRIBE IN KANSAS	-	Funds Only	-	LC-LOC	2024
Brown	U036	U.S. 36 (1ST STREET), FROM THE WEST CITY LIMITS TO EAST CITY LIMITS OF FAIRVIEW	0.6	Grading and Surfacing	1,463	LC-K3R	2023
Brown	U073	U.S. 73 (CENTRAL AVENUE), FROM 18TH STREET TO NORTH CITY LIMITS IN HORTON	0.1	Milling and Overlay	241	LC-K1R	2024
Butler		BRIDGE OVER NORTH BRANCH HICKORY CREEK ON SE FLINTHILLS ROAD LOCATED A MILE EAST AND 5.8 MILES NORTH OF LATHAM	0.2	Bridge Replacement	291	LC-LBT	2024
Butler		NORTH SIDE OF THE HERITAGE SQUARE DEVELOPMENT IN ANDOVER	0.3	Grading and Surfacing	1,025	MM-COR	2023
Butler		SW BUTLER ROAD FROM SW 170TH STREET TO SW 155TH STREET	1.4	Grading, Bridge and Surfacing	11,905	LC-RES	2026
Butler		SW HAVERHILL ROAD, FROM 0.9 MILE SOUTH OF SW 20TH STREET NORTH 1.9 MILES TO JUST SOUTH OF THE INTERSECTION WITH W TOWANDA AVENUE NEAR EL DORADO	1.9	Grading and Surfacing	8,000	SE-CSP	2024

Kansas Airport Improvement Program Project Summary by County - FY 2023

County/City	Project	Total Cost	State Funds	Local Funds
Anthony	Replace airport beacon and install AWOS	\$280,500.00	\$252,450.00	\$28,050.00
Atchison	Construction on new runway 9-27	\$7,893,480.00	\$89,396.00	\$7,804,084.00
Atchison	Design primary apron expansion	\$40,000.00	\$38,000.00	\$2,000.00
Atchison	Construction of primary apron expansion	\$365,000.00	\$328,500.00	\$36,500.00
Atwood/Rawlins Co.	Replace airport beacon	\$80,000.00	\$72,000.00	\$8,000.00
Augusta	FOD sweeper unit	\$7,995.00	\$3,997.50	\$3,997.50
Augusta	Fuel farm equipment safety and environmental improvements	\$11,832.45	\$10,057.58	\$1,774.87
Augusta	Crack sealant melter/applicator unit with pallet of rubber crack filler material	\$3,318.00	\$2,820.30	497.70
Beloit	Replace outdated (2008) AWOS system	\$200,000.00	\$180,000.00	\$20,000.00
Benton	AWOS upgrade and service	\$8,800.00	\$7,920.00	\$880.00
Colby	Construction of D32 taxiway to new business hangar	\$120,000.00	\$108,000.00	\$12,000.00
Dodge City	Replace airfield generator	\$80,000.00	\$72,000.00	\$8,000.00
Ellsworth	Replace lightning damaged and aging AWOS system	\$269,500.00	\$242,550.00	\$26,950.00
Emporia	Paving materials to extend runway length to no less than 5,002'	\$83,333.00	\$75,000.00	\$8,333.00
Fort Scott	Install electronic gate/keypad for security access/wildlife control	\$25,000.00	\$21,250.00	\$3,750.00
Goodland	Pavement preservation on runway 12-30, replace joint seal on 50% of concrete pavement, repaint runway 12-30 and portion of GA apron	\$454,500.00	\$409,050.00	\$45,450.00
Herrington	Replace airport beacon	\$20,000.00	\$18,000.00	\$2,000.00
Hutchinson	Design hangar improvements to accommodate water bomber storage	\$10,000.00	\$9,500.00	\$500.00
Hutchinson	Construct hangar improvements to accommodate water bomber storage	\$101,000.00	\$85,850.00	\$15,150.00

Kansas Airport Improvement Program Project Summary by County - FY 2023

County/City	Project	Total Cost	State Funds	Local Funds
Iola/Allen Co.	Pavement preservation of runway 1-19 and remarking	\$530,000.00	\$477,000.00	\$53,000.00
Leoti	Install turnaround lights on ends of runway 17/35	\$80,000.00	\$72,000.00	\$8,000.00
Olathe/IXD	Pavement maintenance materials	\$16,000.00	\$14,400.00	\$1,600.00
Olathe/OJC	Consolidate airfield electrical service equipment in one electrical vault	\$420,000.00	\$378,000.00	\$42,000.00
Olathe/OJC	Pavement maintenance materials	\$16,000.00	\$14,400.00	\$1,600.00
Phillipsburg	Replace aging existing AWOS	\$231,000.00	\$207,900.00	\$23,100.00
Rose Hill	Runway/taxiway repair and pavement preservation entire airfield	\$96,800.00	\$87,120.00	\$9,680.00
Smith Center	Design installation of an AWOS with P/T	\$50,000.00	\$47,500.00	\$2,500.00
Smith Center	Construct installation of an AWOS with P/T	\$340,000.00	\$306,000.00	\$34,000.00
Stockton/Rooks Co.	Design replacement of AWOS A/V with AWOS III-P/T	\$50,000.00	\$47,500.00	\$2,500.00
Stockton/Rooks Co.	Construct replacement of AWOS A/V with AWOS III-P/T	\$285,000.00	\$256,500.00	\$28,500.00
Sublette	Crack sealing and runway marking of runway 17-35	\$30,000.00	\$27,000.00	\$3,000.00
Syracuse/Hamilton Co.	Design pavement preservation and marking for runway 13-31 and apron	\$40,000.00	\$38,000.00	\$2,000.00
Syracuse/Hamilton Co.	Construct pavement preservation/markings for runway 13-31 and apron	\$200,000.00	\$180,000.00	\$20,000.00
Ulysses/Grant Co.	Design 100LL replacement/installation of new Jet-A self-serve fuel facility	\$85,000.00	\$80,750.00	\$4,250.00
Ulysses/Grant Co.	Replace 100LL and install Jet-A self-serve fuel facility	\$515,000.00	\$437,750.00	\$77,250.00
Winfield	Replace aging existing generator that feeds airfield lighting and nav aids	\$300,000.00	\$270,000.00	\$30,000.00

Kansas Airport Improvement Program Project Summary by County - FY 2022

County/City	Project	Total Cost	State Funds	Local Funds
Atchison	Replace 12,800 sq ft of apron taxiway in front of north hangar	\$160,000.00	\$144,000.00	\$16,000.00
Chanute	Reconstruct pavement in front of community hangar	\$80,000.00	\$72,000.00	\$8,000.00
Dodge City	Crack seal runway	\$28,290.00	\$25,451.00	\$2,839.00
Elkhart/Morton Co.	5% match to FAA grant for runway rehabilitation	\$735,000.00	\$36,750.00	\$698,250.00
Elkhart/Morton Co.	Replace runway lighting system	\$14,980.00	\$12,733.00	\$2,247.00
Emporia	Design 51- foot runway extension	\$163,000.00	\$154,850.00	\$8,150.00
Fort Scott	Upgrade fueling system	\$20,000.00	\$17,005.00	\$2,995.00
Goodland	Continue Taxiway B replacement	\$380,000.00	\$342,000.00	\$38,000.00
Great Bend	Mill and overlay 2,000 ft of Taxiway A	\$165,500.00	\$148,950.00	\$16,550.00
Hiawatha	Install edge lighting on Runway 10/28	\$160,000.00	\$136,000.00	\$24,000.00
Kinsley	Crack and slurry seal and replace markings on Taxiway and Runway 18/36	\$260,000.00	\$235,000.00	\$25,000.00
Lakin/Kearny co.	Asphalt overlay/crack sealing/replace runway markings	\$107,600.00	\$96,840.00	\$10,760.00
Lawrence	Repair hangard-adjacent pavements	\$204,927.00	\$184,435.00	\$20,492.00
Leavenworth	Replace fuel dispenser damaged in flooding	\$39,500.00	\$35,550.00	\$3,950.00
Ness City	AWOS	\$250,000.00	\$214,500.00	\$35,500.00
Olathe/OJC	Security gates	\$165,000.00	\$140,250.00	\$24,750.00
Olathe/OJC	Crack sealing materials	\$16,000.00	\$14,400.00	\$1,600.00
Olathe/IXD	Replace air traffic control recorders	\$60,000.00	\$51,000.00	\$9,000.00
Olathe/IXD	Security gates	\$165,000.00	\$140,250.00	\$24,750.00

Kansas Airport Improvement Program Project Summary by County - FY 2022

County/City	Project	Total Cost	State Funds	Local Funds
Olathe/IXD	Crack sealing materials	\$16,000.00	\$14,400.00	\$1,600.00
Parsons/Tri-City	Taxiway A rehabilitation	\$150,000.00	\$135,000.00	\$15,000.00
Pratt	Rehabilitate fueling/tiedown apron	\$200,000.00	\$180,000.00	\$20,000.00
Rose Hill	Add security gates	\$60,000.00	\$51,000.00	\$9,000.00
Rose Hill	Crack seal taxiways and runways	\$15,000.00	\$13,500.00	\$1,500.00
Sabetha	AGIS survey + ALP site study + obstacle evaluation	\$300,000.00	\$285,000.00	\$15,000.00
Scott City	Construct new taxiway connections	\$222,000.00	\$142,080.00	\$79,920.00
Smith Center	Resealing concrete joints and remarking Runway 14/32	\$257,950.00	\$235,155.00	\$22,795.00
St. Francis/Cheyenne Co.	Extend taxiway for new business	\$175,000.00	\$157,500.00	\$17,500.00
St. Francis/Cheyenne Co.	Install light pole with LEDs	\$17,500.00	\$15,750.00	\$1,750.00
Syracuse	Crack seal asphalt damaged by snow plowing	\$20,000.00	\$18,000.00	\$2,000.00
Ulysses	Rehabilitate Runway 17/35	\$630,000.00	\$570,000.00	\$60,000.00
Ulysses	Replace runway edge lights	\$420,000.00	\$381,000.00	\$39,000.00
Winfield	Construct new taxi lanes to new hangars	\$320,000.00	\$288,000.00	\$32,000.00

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short Line railroads provide rail service to such areas, provide an alternative to trucks for freight (primarily grain) shippers, and keep rural areas of the state connected to the national network and access to national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increase maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Fund (RSIF) and Short Line Rail Improvement Fund (SLRIF) are administered by KDOT's freight and rail unit. These funds make available to short line railroads, shippers and other qualifying entities grants to be used for major track rehabilitation and capacity improvement projects. Funds may also be used for financing and acquisition activities and the purchase of rolling stock.

Included in the list below are projects completed in FY 2022, projects currently in progress and projects with signed agreements.

Project Number	Rail Line Segment	Grant Amount	Project Description
1 RA-5423-22	Monarch Cement	\$ 2,100,000.00	Siding Construction
18 RA-5432-22	South Kansas and Oklahoma Railroad	182,118.00	Replace Nine Switches Winnfield Yard, 286K
26 RA-7011-22	Midland Marketing Cooperative	345,165.00	Siding Rehabilitation, Rail Replacement
27 RA-2933-22	Kansas and Oklahoma Railroad	182,119.00	Replace Four Switches Wichita South Yard, 286K
28 RA-2122-22	Garden City Western Railroad	307,513.00	Rail Line Rehabilitation
46 RA-7211-22	New Century AirCenter Railroad	849,900.00	Rail Line Rehabilitation, Rail Replacement
62 RA-3335-22	KYLE Railroad	1,440,000.00	Rail Replacement, 286K
63 RA-5431-22	South Kansas and Oklahoma Railroad	619,564.00	Rail Line Rehabilitation, Rail Replacement, 286K

Rail projects continued from previous page

Project Number	Rail Line Segment	Grant Amount	Project Description
78 RA-2932-22	Kansas and Oklahoma Railroad	112,595.00	Rail Replacement, 286K
79 RA-3313-22	Bestifor Farms	664,756.00	Siding Construction
80 RA-2925-22	Producer Ag	1,625,169.00	Loop Track Construction
86 RA-2924-22	Dei-Fan Logistics	642,526.00	Siding Construction
106 RA-2931-22	Kansas and Oklahoma Railroad	955,500.00	Upgrade Bridges, 286K
5 RA-6321-22	Bartlett Grain	1,813,952.00	Expansion of Siding and Ladder Tracks
19 RA-5412-22	South Kansas and Oklahoma Railroad	114,725.00	Rail Line Rehabilitation, 286K
62 RA-3311-22	KYLE Railroad	700,000.00	Rail Line Rehabilitation, Rail Replacement, 286K
62 RA-6221-22	Central Valley Ag	421,970.00	Siding Rehabilitation
78 RA-6411-22	Hutchinson Transportation	513,718.00	Rail Line Rehabilitation, Rail Replacement
83 RA-6021-22	Midland Marketing Cooperative	467,509.00	Siding Rehabilitation and Expansion
87 RA-2911-22	Kansas and Oklahoma Railroad	535,782.00	Rehabilitate Nine Crossings, Bailey Street Corridor
87 RA-6611-22	Gavilon Grain	280,093.00	Siding Rehabilitation

State/Federal Public Transit Programs - Contracts

FY 2023 Coordinated Transit District (CTD) Operating

Coordinated Transit District (CTD) Operating	Counties Served	Total Operating Costs	Local Share	State Share	Federal Share	Total Vehicle Costs	Local Share	State Share	Federal Share
Urban Corridor Coordinated Transit Council (CTD 1)	Douglas, Johnson, Leavenworth, Wyandotte	\$472,692.58	\$89,860.19	\$121,876.93	\$275,758.45	\$181,500.00	\$36,300.00	\$0.00	\$145,200.00
