

# 1997 TRAFFIC FLOW MAP KANSAS STATE HIGHWAY SYSTEM

KANSAS DEPARTMENT OF TRANSPORTATION  
BUREAU OF TRANSPORTATION PLANNING  
IN COOPERATION WITH THE  
U.S. DEPARTMENT OF TRANSPORTATION  
FEDERAL HIGHWAY ADMINISTRATION

Annual Average Daily Traffic (AADT)  
Traffic counts recorded in FY 1996 (July 1995 - June 1996)  
Highway alignments updated as of January 1, 1997

**LEGEND**

OVER 6,000	TOTAL VOLUME	VEHICLE CLASSIFICATION LOCATION
3,500 - 5,999	HEAVY COMMERCIAL VOLUME	
1,750 - 3,499		
875 - 1,749	AUTOMATIC TRAFFIC RECORDER	
0 - 874		

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 1996. These AADT's are derived primarily from 24-hour traffic volumes recorded with portable, cumulative traffic counters. These short-period counts are adjusted for day of the week and seasonal variations using data from 98 continuous Automatic Traffic Recorders. An adjustment factor has been applied to each short-period count. A minimal amount of smoothing has been applied where large unexplained changes in traffic volumes were observed.

Heavy commercial volumes were derived from 24 or 48-hour visit or motorist vehicle classification counts. These count locations are indicated by a check mark on the map. Heavy commercial AADT's for other locations are estimated from nearby counts on the same route or on other routes judged to have similar traffic characteristics.

Traffic counts on new bypasses in Lawrence, Dodge City and Winfield are included on the map in green indicating they were recorded in FY 1997.
