

REQUIRED CONTRACT PROVISION - 01-01-18 (09/18)

SMART WORK ZONE SYSTEM UNIT COST

The Contractor shall comply with the Special Provision titled "Smart Work Zone" that is included in the Proposal when providing and installing elements of the Smart Work Zone System. Add the following at the end of Section 4 Measurement and Payment.

The Contractor will submit a unit cost in this Required Contract Provision for each individual Smart Work Zone items the contract requires. Depending on the units, the Engineer will adjust these prices by any increase or decrease in the quantities indicated in the Smart Work Zone System Unit Cost List shown in the plans. To calculate the adjustment, the Engineer will determine the overrun or underrun quantity for each Smart Work Zone System item listed in the contract. The Engineer will multiply any overrun or underrun quantity by the unit cost the Contractor provided below. The Engineer will increase the prices by the cost of any overruns and decrease the prices by the cost of any underruns. The Engineer will only negotiate or receive new prices on the bids items if they were not identified in the original Smart Work Zone System Unit Cost List.

The Secretary may reject this Proposal if the Contractor fails to complete this Required Contract Provision when submitting their Proposal.

ID#	Unit Cost	ID#	Unit Cost	ID#	Unit Cost
